

1. Parts Check

2 Wide drawers, 2 Narrow drawers, 2 Inner Sidewalls,
4 Long drawer rails, 4 Short drawer rails, 1 Bag carcass

2. Drawer Construction

Peel Tape before installing inner flaps
& drawer rails to assure a firm fit.

Between

Fold secondary flaps inside Rear and Handle Flaps and
install drawer rails along front and rear edges

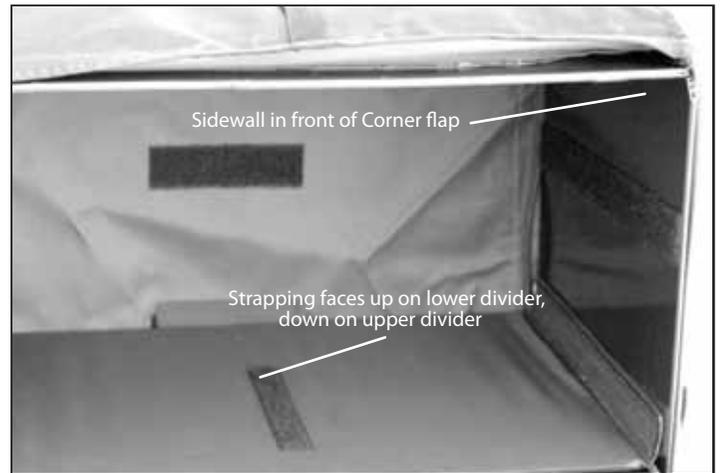

3. Insert Sidewalls & Check All Drawers

Inner Sidewall

When inserting Sidewalls, assure that the wall sits
sits in front of carcass Corner Flap (step 4 detail) and
that mounts are aligned with carcass mounts

4. Divider Installation & Alignment

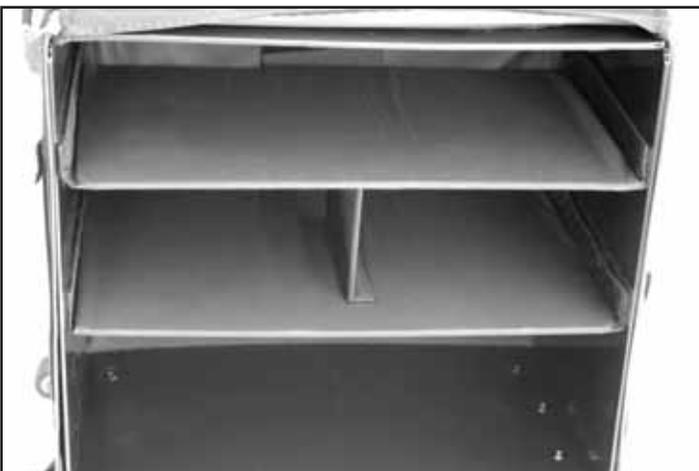

Sidewall in front of Corner flap

Strapping faces up on lower divider,
down on upper divider

Once sidewalls are properly installed, begin installing
drawer dividers

5. Check Dividers

Make sure that all dividers are mounted properly.
If center vertical divider is not perpendicular,
try flipping it over.

6. Final Check

insert drawres, make any adjustments necessary,
then Load-it, Zip-it, and Roll-out!
